

IDOM UK CARBON REDUCTION PLAN

Commitment to achieving Net Zero

IDOM UK Ltd is committed to achieving Operational Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

The baseline year has been calculated following the UK Government Carbon Reduction technical standard and guidance.

Baseline Emissions Reporting
